

WHAT IS SCIENCE?

Careers in science are about
more than graduation...

Science Threshold Learning Outcomes for Bachelor-level graduates.

What makes science science?

How do you tackle a scientific problem?

How do you know when scientific
results are reliable?

How do you explain scientific ideas
in everyday language?

Will being a self-starter in learning
and research help you?

Watch student interviews with working scientists
by streaming or downloading at
www.bookendtrust.com/science.html
or scan the QR code below:

The Science Threshold Learning Outcomes
are fully explained in a downloadable booklet -
see the above website for details.
